

fish, wildlife or other beneficial uses in view of the nature, extent and timeliness of regular and normal logging practices carried out relative to the log and debris items.

2. The petitioner did not intentionally or negligently perform any act which resulted in the matters complained of.

3. The alleged discharge, or deposit where there would probably be a discharge, into waters neither created nor threatened to create a condition of pollution or nuisance.

I. DISCUSSION

On July 23, 1979, the Executive Officer of the Regional Board issued Order No. 79-140 rescinding Cleanup and Abatement Order No. 79-21 because the activities required by that order have been completed. Since the requirements of the order which is the subject of this petition have been met and the order has been rescinded, it is neither necessary or appropriate for us to review this matter at this time.

II. ORDER

IT IS, THEREFORE, ORDERED that the petition for review of issuance of California Regional Water Quality Control Board, North Coast Region, Cleanup and Abatement Order No. 79-21 is dismissed.

Dated: AUG 16 1979
